**School Calendar**

The superintendent shall propose the calendar for each school year. The board will approve and/or amend the proposed calendar. The calendar shall provide for sufficient instructional time to meet or exceed the requirements of state statutes and regulations, and should provide time for staff orientation, in-service and curriculum work.

**Instructional Program**

1. The minimum number of instructional hours in the school year will be 962.5 for middle school and high school students, 875 for elementary students, and 437.5 for kindergarten students, exclusive of lunchtime.
2. The district may establish special programs for individual students that may deviate from these requirements. All special programs must either be adopted pursuant to applicable law or approved by the superintendent in advance. Prior to the district's commencement of a specialized program, the district will provide the student's parents or guardians with notice of the program.
3. The administration and certified staff will utilize a curriculum and procure textbooks and materials to support that curriculum. The administration and certificated staff will design instructional strategies and assessments to implement the curriculum.
4. To the extent possible, practice for, travel to, and participation in activities sponsored by the South Dakota High School Activities Association and the South Dakota Department of Education will be scheduled outside of instructional time. Individual student absences because of illness or family-centered activities will be governed by district attendance policies.
5. The board intends to strike a sensible balance between the time spent on academics and time spent on extra-curricular activities, acknowledging that both work and play are important in each student's total development and education.

**Curriculum Development**

The superintendent or his/her designee shall be responsible for providing and directing system-wide planning for curriculum, instruction, assessment and staff development.

Teachers are responsible for teaching the written curriculum. Principals are responsible for monitoring the curriculum and evaluating teachers to ensure that they are teaching in compliance with the written curriculum. The superintendent and his/her designee shall ensure that principals monitor the curriculum and evaluate teachers.

**Curriculum and Textbook Adoption**

The District will adopt textbooks upon recommendation of the Director of Curriculum. The Director will select textbooks:

- that will advance the educational goals of the District and particular program;
- consistent with the curriculum; and
- which will establish the framework for the particular program.

**Academic Credits and Graduation**

A student must earn at least 22 credits in grades 9 through 12 to graduate. The credits must include:

- Four units or more of language arts that include the following:
  - One unit of writing;
  - One-half unit of speech or debate; and
  - One unit of literature that must include one-half unit of American literature;
- Three units each of:
  - Social studies that include one unit of U.S. history and one-half unit of U.S. government;
  - Mathematics that includes one unit of Algebra I;
  - Science that includes one unit of biology;
- One unit or more of any of the following:
  - Approved career and technical education courses;
  - A capstone experience; or
  - World languages;
- One unit of fine arts;
- One-half unit of each of the following:
  - Personal finance or economics;
  - Physical education;
  - Health or health integration
- Five and one-half units of electives.

**Commencement Ceremony**

The district shall conduct a commencement ceremony for members of the senior class at the end of the school year. Participation in the ceremony is a privilege, not a right, and the superintendent or his/her designee may prohibit students who have violated conduct rules from participating in the ceremony as a consequence for the misconduct.

Only those students who have completed all graduation requirements (i.e., completed the required coursework or achieved the goals set in the student's individual education plan) or who have received a certificate of attendance will be allowed to participate in commencement.

As required by state law, students participating in a commencement ceremony are allowed to adorn their graduation regalia with an eagle feather, eagle plume, or to wear a beaded graduation cap. No obscene adornments are allowed.

A student who lacks the required credits for graduation may participate in commencement ceremonies but will not be awarded a diploma until all graduation requirements have been met.

## **6008 Class Rank**

Student class rank shall be determined by using a numeric grade point average derived from all classes graded on a numeric basis. To be included in the class ranking, a student must have received a numeric grade for each class in which he/she was enrolled.

Students who transfer into the school district will be eligible to be included in class ranking after two semesters of attendance.

Students who transfer into the school district in middle of their senior year will be eligible to be included in class ranking, although a mid-year transfer will not displace the ranking of a student who has not transferred mid-year. In those circumstances there will be two students holding the relevant class ranking. Mid-year transfer students will not be eligible to receive senior awards such as valedictorian and salutatorian unless the student has been enrolled in the district's high school for the last two semesters.

### Grade Placement and Academic Credits of Transfer Students

Subject to a determination on grade placement based on the criteria set forth below, a student transferring from an accredited school generally will be placed at the grade level that is comparable to the placement in the school from which the student is transferring. Temporary placement may be made until a student's records are received to verify the placement.

**Placement of Students Not from Accredited Schools.** Initial placement of these students is determined by their performance on one or more standardized tests, but the student will not be placed in a grade higher than warranted by the child's age (with the assumption the student attended first grade at age six with annual grade advancement thereafter). The student may be placed according to performance alone after the initial placement.

**Secondary Students Not from Accredited Schools.** These students will be placed in English and Math classes as demonstrated by performance on one or more standardized tests. Placement of the student and acceptance of credits will be determined based on the following factors:

- Previous public school or private school experience and transcript
- Standardized achievement test data
- Criterion-referenced test data
- Final examination test data
- Diagnostic test data

**Transfer Credits.** The district will accept credits toward graduation that were awarded by an accredited school district and which, in the professional judgment of the administrative team, are sufficiently rigorous and comparable to the district's offered courses of study. A student transferring into the school district in grades 9-12 will be responsible for meeting all graduation requirements in order to be awarded a diploma from the district.

Each building principal or designee shall be responsible for the care and display of the flags at his/her assigned building, and shall adhere to the rules and customs pertaining to the use and display of the flags as set forth in the United States Code.

Each day, at the time designated by the building administrator, staff shall ensure that students in grades K-12 will be led in the recitation of the Pledge of Allegiance in the presence of the flag of the United States of America. Pupil participation in the recitation of pledge shall be voluntary. Pupils who elect not to participate shall sit or stand silently and must respect the rights of those students choosing to participate.

As required by South Dakota law SDCL 13-24-23, the District will display the national motto of "In God We Trust" in each school building. This display can be whatever appropriate form as determined by the building principal, but may not be smaller than twelve inches wide by twelve inches tall.

## **6013 Teaching Controversial Issues**

The ability to discuss, listen, and dissent are essential elements of responsible citizenship. The school district encourages students to develop skills in analyzing issues, respecting the opinion of others, distinguishing between fact and opinion, considering all pertinent factors in reaching decisions, and arriving at group decisions.

Teachers may teach or lead discussions about controversial issues if they comply with the following criteria:

1. The issues discussed must be relevant to the curriculum and be part of a planned educational program.
2. Students must have free access to appropriate materials and information for analysis and evaluation of the issues.
3. The teacher must encourage students to consider and discuss a variety of viewpoints.
4. The topic and materials used must be within the range, knowledge, maturity, and competence of the students.
5. Teachers must refrain from advocating partisan causes, sectarian religious views, or selfish propaganda of any kind through any classroom or a school device. However, a teacher shall not be prohibited from expressing a personal opinion as long as the student is encouraged to reach his/her own decision independently.

Teachers who are unsure of their obligations under this policy must confer with their superintendent or principal prior to discussing controversial issues in the classroom.

**Homebound and Off-Campus Instruction**

The school district may provide a student with instruction in his or her home or other off-campus location under the following circumstances:

- if the student’s IEP or 504 team determines that homebound instruction is appropriate;
- if the student is physically or mentally ill or injured and unable to attend regular classes and the superintendent or his/her designee had determined that a program of off-campus instruction is appropriate, after conferring with the student’s parents, teacher(s) and/or physician; or
- under other circumstances which the superintendent deems to be appropriate.

Homebound and off-campus instruction may include a variety of in-person and distance learning services, as determined appropriate by the superintendent or relevant educational team. The superintendent or relevant educational team shall periodically review individual off-campus instructional programs and shall only continue them as long as they are educationally appropriate.

### District Criteria for Selecting Evaluators to be Used for Special Education Evaluation and Verification and Independent Educational Evaluations

1. The following criteria shall be used for selecting evaluators according to SDLRC 24:05:30:03:
2. Those in-state service agencies that are approved by the South Dakota Department of Education for reimbursement. A list of service agencies with approved rates, including state agencies, individual providers, and in-state providers may be found at \_\_\_\_.
3. Those South Dakota providers located within 100 [NOTE TO BE DELETED: insert mileage that is appropriate to your district's geographic location.] miles of the building of the district where the child attends when driving by ordinary public roadways, except [include here any exceptions to these criteria necessary for specific assessments which the district would not obtain within the indicated area. Based on feedback from Special Education Directors statewide, these exceptions might include the following: vision-related evaluations (\_\_\_ miles); evaluations for severe autism spectrum disorder (\_\_\_ miles); evaluations for severe psychiatric disorders (\_\_\_ miles); evaluations for significant or atypical orthopedic disorders (\_\_\_ miles); threat assessments (\_\_\_ miles); profound hearing impairments (\_\_\_ miles). You should specifically identify such assessments after consulting with your special education or educational service unit staff, and include those and their relevant mileage range. If no assessments would require a deviation from this area, simply conclude this paragraph after the word "roadways."]
4. Evaluations must consider the educational, health, or other student records of the student provided by the district. The parents, guardians, or age-appropriate student must provide any required consent to the disclosure of these records unless disclosure is already authorized by state and federal law.
5. Evaluations must be provided to the district, including all educational, health, student, or other records created as part of or relied upon to complete the evaluation. The parents, guardians, or age-appropriate student must provide any required consent to the disclosure of these records unless disclosure is already authorized by state and federal law.
6. Evaluations must be conducted by a provider that is authorized, available, and willing to discuss, confer, or otherwise cooperate with the district regarding the evaluation, its results, or any other information related to the evaluation.

Such cooperation may include reasonable participation in, or the submission of additional reports or information to, an IEP, MDT, or SAT team. The parents, guardians, or age-appropriate student must provide any required consent to the disclosure of these records or information unless disclosure is already authorized by state and federal law.

7. Evaluations must be sufficiently comprehensive for the evaluator to submit to the district a report that specifically details whether the student should be considered eligible for special education and related services, the nature of special education and related services recommended to accommodate the student's suspected disability, and the particular facts or findings underlying the evaluator's conclusions. This report must be submitted to the district within 45 days after the conclusion of the evaluation.
8. Evaluations must meet the then-current state standards for reliability, research-based processes, and educational or professional best practices.
9. Reimbursement to any evaluator chosen in conformance with this policy shall not exceed the cost that would be charged by the school district's contracted providers for the same or substantially similar evaluation.

All special education evaluations, including those independently obtained at the district's expense, must be obtained in a manner consistent with the criteria set forth above, unless state or federal law requires waiver of one or more criteria in order to accommodate unique circumstances.

**Student Cell Phone and Other Electronic Devices**

Students may use cellular phones or other electronic devices while at school, so long as they do so safely, responsibly and respectfully and comply with all other school rules while using these devices.

By bringing their cell phones and other electronic communication devices to school, students consent to the search of said devices by school staff when permitted by law.

Students may not use cell phones or electronic devices while they are in locker rooms, restrooms, or any other area in which others may have a reasonable expectation of privacy.

The taking, disseminating, transferring, or sharing of obscene, pornographic, lewd, or otherwise illegal images or photographs, whether by electronic data transfer or otherwise (including things like texting, sexting, e-mailing, etc.) may constitute a crime under state and/or federal law. Any person engaged in these activities while on school grounds, in a school vehicle or at a school activity will be subject to the disciplinary procedures of the student code of conduct.

While on school property, at a school activity, or in a school vehicle, students may not use their cell phones or electronic devices to bully, harass, or intimidate any other person as governed by the student code of conduct.

Students shall be personally and solely responsible for the security of their electronic devices. The district is not responsible for theft, loss or damage of any electronic device, including or any calls or downloads.

Students who violate this policy may have their cell phones or electronic devices confiscated immediately. The administration will return confiscated devices to the parent or guardian of the offending student, after meeting with the parent or guardian to discuss the rule violation. Students who violate this policy may, at the discretion of the school's administration, be subject to additional discipline, up to and including suspension or expulsion.

## **6027 Field Trips**

The board encourages instructional staff to incorporate field trips into the curriculum. These trips should normally be conducted during the school day.

### **1. General Conditions**

All trips must be pre-approved by the teacher's building principal. The superintendent and principals will develop guidelines for approval of trips and communicate those guidelines to teaching staff.

### **2. Parental Permission**

Parents will be notified of a field trip prior to the day of the trip. Parents will have the opportunity to inform the District that they do not wish for their student to attend the trip.

### **3. Supervision**

Sponsoring teachers must ensure that students are adequately supervised and chaperoned by a responsible adult at all times during field trips. Whether paid staff or volunteers, chaperones are prohibited from drinking alcoholic beverages of any kind at any time during any field trip. All chaperones must be at least 21 years of age. Any chaperone who drives students must possess a valid driver's license. Chaperones who drive students in private vehicles must possess adequate insurance coverage. Chaperones do not have any property right in or to a chaperone assignment. The school district may deny or terminate a chaperone assignment for any reason that is not unconstitutional or unlawful. The superintendent's decision shall be final.

**The Extracurricular Activities Program**

**1. General Purpose**

- a. The extracurricular program includes noncurricular activities which are sponsored by the school district. These activities include sports, Oral Interpretation, plays, Future Farmers of America, Future Business Leaders of America, music performance groups and other activities which are sponsored by the school.
- b. Extracurricular activities are an important part of the total school experience, but are secondary to the academic program and must be kept in that perspective.
- c. Extracurricular activities **do not** include:
  - i. co-curricular activities such as band and choir, in which students must participate as part of the requirements for enrollment in and receiving a grade for a particular course.
  - ii. student-initiated, non-curriculum related student groups which are permitted to hold meetings and events on school premises. These groups are not school-sponsored and are not governed by this policy or other policies and rules governing extracurricular groups.

**2. Governance**

- a. All extracurricular activities shall be under the exclusive governance and control of the school district. This control includes, but is not be limited to, the formation, naming, structure, operation, financing, and discontinuance of all extracurricular activities. Extracurricular activities shall not have any separate or individual existence, status, rights, or authority.
- b. Students and sponsors will be governed by all board's policies and administrative rules including the policy on field trips when traveling for extracurricular activities.

**3. Student Eligibility**

- a. Students are encouraged to participate in extracurricular activities.
- b. Extracurricular activities may establish academic or course enrollment qualifications for participation if such qualifications are necessarily related to the purposes of the activity.
- c. Standards for scholastic eligibility for students wishing to participate in extracurricular activities shall be set by the administration and shall be consistent with at least the minimum standards provided by the SDSHAA.
- d. All students in grades 7-12 who participate in athletics must have a physical examination by a qualified health care provider at the student's expense.
- e. Students who wish to participate in extracurricular activities must abide by the student code of conduct, the extracurricular code of conduct and any additional rules set by the activity sponsor.
- f. Students are not eligible to participate in any extracurricular activity until they and their parents/guardians have signed the student handbook and extracurricular handbook receipt and acknowledgement.

#### 4. **Sponsors**

- a. Each extracurricular activity must have a sponsor who is a member of the district's certified staff or a selected community member who is qualified by virtue of education, training, experience, or special interest to serve as the sponsor.
- b. The superintendent or his/her designee will assign activity sponsors. Payment to sponsors will be negotiated with the sponsor based on the terms of any applicable collective bargaining agreement, the sponsor's training and experience and any other lawful criteria. Sponsors serve in their capacity as a sponsor at the will of the superintendent, who is specifically empowered to remove an activity sponsor at the superintendent's sole discretion.
- c. Sponsors shall be required to: develop materials, activities, and a budget; promote membership and participation; communicate

with the principal or designee, staff, students, and parents; schedule meeting dates and locations; plan meaningful experiences; supervise students during activities; evaluate and make recommendations; and submit a year-end report to the principal or designee.

**5. Fundraising Activities**

All fundraising activities shall require authorization by a member of the school district administration and shall be subject to all other school policies. All money raised by these activities shall be governed by Policy 3005.

### Alternative Instruction Students and Activity Participation

Students receiving alternative instruction who reside in the District may participate in District activities in accordance with South Dakota law. Students who wish to participate in a District activity must follow the same rules and procedures as enrolled students, including all training and academic eligibility rules prescribed by the South Dakota High School Activities Association.

**Fine Arts.** Enrollment in the District's parallel fine arts program is required to participate in a fine arts extracurricular program (e.g. enrollment in band is required to participate in All-State Band). A student who is enrolled in the District's parallel fine arts program who then successfully auditions for a correlating extracurricular activity will only be permitted to participate in the extracurricular activity if they remain enrolled in the District's parallel program.

**National Organizations.** Eligibility requirements for national organizations such as the Future Farmers of America will be governed by the organizations' respective constitution and by-laws.

**Documentation.** Prior to participation, a student's parent/guardian must provide the following information to the District:

- Notification of alternative instruction as required by state law;
- Proof of the student's age;
- A copy of a transcript of the student's previous semester's completed coursework, which must indicate the completion of a minimum of two units of credit in accordance with SDHSAA rules. Such eligibility will be verified in accordance with the procedures under Board Policy 6009;
- A completed SDHSAA Eligibility Checklist for Alternative Instruction Students;
- A completed SDHSAA athletic physical examination form;
- Certification from a licensed physician that the child has received or is in the process of receiving adequate immunization against: poliomyelitis, diphtheria, pertussis, rubeola, rubella, mumps, tetanus, meningitis, and varicella.

## **6031 Artificial Intelligence**

As used in this policy, artificial intelligence tools (“AI Tools”) mean machine-based resources that use computer science, algorithms, large language models, and/or machine learning to perform tasks, answer questions, collect information, and respond to human-directed tasks, queries, and objectives. AI Tools include, but are not necessarily limited to, commercially-available resources like ChatGPT, Google Bard, and other chatbots.

The board recognizes that among other resources, when properly used, AI Tools may provide valuable source information to students and teachers in relation to the district’s academic curriculum and assignments. Student use of AI Tools should focus on using such tools as a resource and for background material, rather than using the AI Tools to complete the assignment. Therefore, AI Tools may only be used by students in accordance with the following requirements:

1. Unless an individual teacher affirmatively communicates to students that AI Tools may be used for a specific assignment, then AI Tools may not be used. Individual teachers will decide for each individual assignment the extent to which students may use AI Tools for such assignment. Teachers are encouraged to make such a decision in advance of students being given the individual assignment in question.
2. Teachers will communicate to all students responsible for completing an assignment the extent to which such students may use AI Tools in connection with such assignment. Teachers will endeavor to include in such communications examples of permissible and impermissible uses of AI Tools.
3. If a student uses any AI Tools in connection with a school assignment, the student must comply with the following:
  - a. The student must explicitly disclose to the teacher in writing that the student used an AI Tool and the specific AI Tool used.
  - b. In any student work (whether hard copy, electronic, digital, or otherwise), the student shall give proper attribution to the AI Tool(s) used to the same extent that students are expected to give proper attribution to other sources of information such as books, texts, encyclopedias, secondary sources, and other

traditional media. Such attribution may include, but is not necessarily limited to, accurate quotations, citations, footnotes, endnotes, and/or bibliography entries.

- c. In no instance may the output from one or more AI Tools be copied and placed within a student’s work as if the student wrote such section himself or herself. For example and not limitation, students may not outsource the organization or the writing of any written work to any AI Tool.
4. A student’s failure to meet the requirements stated in this policy will constitute a violation of the district’s prohibitions against cheating plagiarism and/or academic dishonesty, including but not necessarily limited to such prohibitions stated in the Student Handbook, which violation will subject the student to discipline up to and including expulsion.
  5. The student requirements stated above are the minimum requirements for any student assignment. An individual teacher may impose more stringent requirements for any specific academic assignment or coursework.

### **Selection and Review of Library Media**

The board approves curriculum and curriculum-related materials for the district with input from administrators and staff. Those processes are covered in other board policies. Staff members seeking to procure materials for use during instruction must follow board policy, practices, and directives. Those items are not covered by this policy.

The district procures library books and other media available to students that are not part of a specific class or curriculum. For purposes of this policy, those will be called library materials. This policy addresses the selection and review of library materials, regardless of their source. This policy applies regardless of whether library materials are purchased using district funds, donated, or shared at no cost to the district.

**No Right to Materials.** The board supports having excellent educational opportunities for students, including availability of library materials used to enrich the educational experience. However, the board and administration are responsible for considering materials based on a variety of factors and legal obligations. There is no right to force any material to be included or excluded. Staff requesting library materials do so only within the course and scope of their employment with the district.

**Selection Process.** The selection and approval of new library materials must comply with the district's general requisition, donation, and budgeting requirements. To ensure materials selected are appropriate for the district's students and consistent with the district's legal obligations, the following process applies to selection of library materials.

The school librarian, media specialist, or any individual requesting library materials is responsible for submitting the request in writing to the building principal or to superintendent if there is no principal assigned to the building. The request must include the following

1. Name of the book, material, or resource;
2. The author, publisher, and supplier of the material;
3. The physical medium (*i.e.*, book, magazine, video, game, digital subscription, etc.);
4. The cost of the material;
5. A summary of the content of the material, including how it supports age-appropriate learning objectives, enriches the curriculum, and/or supports student development and learning;

6. The material's accolades, such as presence on best seller lists, awards won, and recommendations from professional library journals and organizations with a focus on K-12 school library materials; and
7. Whether any of the content in the material represents a perspective that may not be universal, such as a political, religious, or social perspective for which disagreement or differences of opinion exist. The summary should include a description of these items.

The building principal or superintendent will review the library material request and inform the requester whether the material will be accepted or denied. Materials which require expenditure of district funds will be processed consistently with the district's purchasing and procurement policies and practices. There is no appeal from this determination.

**Requested Review of Library Materials.** A concerned parent of a current student or patron living within the school district boundaries may request the review of a specific library material (*i.e.*, a specific book, magazine, etc.) or portion of a specific library material. The parent or patron must first discuss their concern with the building principal and explain their concern regarding the library material. If there is no principal assigned to that building, the parent or patron should discuss their concern with the superintendent. The board believes most concerns will be resolved in this manner.

If the parent or patron is dissatisfied after the informal review and discussion with the relevant administrator, they may request a review in writing. To request a review, the individual must complete the Library Material Review Request form and submit it to the superintendent.

The superintendent will review the request within a reasonable time after receiving it. The superintendent may consult with the school's librarian or media specialist, staff, and legal counsel at his or her discretion. The superintendent may decide to remove the material, keep the material, restrict access to the material to students based on age or grade level, or make any other determination the superintendent deems appropriate. The superintendent's decision regarding the review will be communicated to the requester in writing.

The decision of the superintendent is final, and the board will not hear any appeal regarding the review of library material.

**Additional Rules for Library Media Review.** Unless the superintendent decides otherwise, the library material will remain in circulation while a review

is pending. Unless otherwise required by law, no library material will be reviewed again within 4 years after a requested review is completed. Any parent or patron requesting review of multiple library materials may only request a maximum of 5 materials to be reviewed at one time, and a new request cannot be submitted until the prior review is completed and notice of the determination is provided to the requesting party. Nothing in this policy prohibits the superintendent or their designee from reviewing library material outside of the review process contained in this policy and taking any action the superintendent or their designee deems appropriate.

## **6033 Restraint and Seclusion of Students**

Restraint and seclusion, as defined below, are behavioral interventions. The use of such behavioral interventions must be in accordance with this policy. The following interventions do not constitute seclusion and restraint, and are not governed by this policy: voice control, limited to loud, firm commands; time-limited ignoring of specific behaviors; brief physical prompts to interrupt or prevent a specific behavior; physical interventions which a student's health care provider has indicated are medically necessary for the treatment or protection of the individual; or other similar interventions.

### **Definitions**

*Physical restraint* refers to a personal restriction that immobilizes or reduces the ability of a student to move his or her torso, arms, legs, or head freely. The term physical restraint does not include a physical escort. Physical escort means a temporary touching or holding of the hand, wrist, arm, shoulder or back for the purpose of inducing a student who is acting out to walk to a safe location. Physical restraint does not include incidental touching that comes along with movement inside a classroom, lunch line, or other areas of the school building where maintaining order is required.

*Mechanical restraint* refers to the use of any device or equipment to restrict a student's freedom of movement. The term does not include devices implemented by trained school personnel, or utilized by a student that have been prescribed by an appropriate medical or related services professional and are used for the specific and approved purposes for which such devices were designed, such as:

- Adaptive devices or mechanical supports used to achieve proper body position, balance, or alignment to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports;
- Vehicle safety restraints when used as intended during the transport of a student in a moving vehicle;
- Restraints for medical immobilization; or
- Orthopedically prescribed devices that permit a student to participate in activities without risk of harm.

*Chemical restraint* refers to the administration of medication for the purpose of restraint, but does not include the administration of medication in

accordance with the directions and prescription of a physician with the consent of the student's parent or guardian.

*Seclusion* refers to the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. It does not include a timeout, which is a behavior management technique that is part of an approved program, involves the monitored separation of the student in a non-locked setting, and is implemented for the purpose of calming.

### **Use of Restraint and Seclusion**

The use of chemical restraint is strictly prohibited. The use of any seclusion or restraint intervention for punitive or disciplinary purposes is strictly prohibited. Similarly, the use of any technique that constitutes corporal punishment, which is the infliction of bodily pain as a penalty for disapproved behavior, is strictly prohibited. Seclusion and/or restraint shall not be used for the convenience of staff or as a substitute for an educational program. When restraint or seclusion is used to respond to the danger of harm posed by a student's behavior, the intervention shall be discontinued as soon as the danger of harm has dissipated.

The use of physical restraint, mechanical restraint, and seclusion is permitted in a manner consistent with this policy:

- as reasonably necessary where the student's behavior risks causing physical harm to self, others, and property;
- in accordance with the student's IEP, Section 504, or behavior intervention plan; *or*
- as otherwise prescribed, recommended, or suggested by a medical or related services provider.

Seclusion will not be used absent a clear and present danger.

Prone restraint, defined as physical pressure applied to any part of the student's body to keep the student in a face down position on the floor or other surface, will not be used except when the use is necessary and reasonable in manner and moderate in degree.

### **Procedures**

No technique shall restrict a student's breathing, deprive a student of basic

needs, or unnecessarily expose a student to physical pain or discomfort.

Seclusion shall not be used for students who are severely self-injurious or suicidal. When seclusion is utilized as permitted by this policy, the following procedures shall be followed:

- The student shall be monitored by an adult in close proximity who is able to regularly observe the student;
- The confining space shall be approved for such use, unless the use of such a space is impossible or impracticable under the circumstances;
- The confining space shall be appropriately lighted, ventilated, and heated or cooled; *and*
- The confining space shall be free from objects that unreasonably expose the student or others to harm.

If a pattern of behavior emerges that requires or is anticipated to require the use of restraint and/or seclusion for the student, the appropriate educators and/or team members shall review what assessments, evaluations, supports, services, programs, or placements are appropriate in light of the student's needs and circumstances.

### **Recording and Reporting**

Each incident of restraint or seclusion must be recorded and reported to a student's parent/guardian as required by the building administrators.

### **Training**

All staff members shall be provided notice of this policy and will be trained on its contents. The Superintendent or his or her designee will identify school staff members likely to implement the restraint or seclusion interventions authorized by this policy and arrange for those individuals to receive appropriate training on the appropriate implementation of such interventions and the use of other behavioral supports and interventions.
