Here are some examples of calculators: (TI-30X IIS, TI-30X IIB, TI-34II Explorer Plus, TI-30Xa, TI-36X Solar) Mrs. Harms says a simple calculator will work fine for her classes. Mrs. Ramstad suggests a TI-30 and Mrs. Boeck has given examples of all that will work for her class. If you do not have a calculator, there will be some available to use in class.
